DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment after non-final filed 29 October 2009. Claims 3-38 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 29 recites the limitation "aorta" in line 5. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 31 recites the limitation "aorta" in line 5. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 38 recites the limitation "aorta" in line 7. There is insufficient antecedent basis for this limitation in the claim.
6. Claims 3-38 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: particularly in independent claims 3, 29, 31, 33, 35, 37, and 38, the claims fail to present structural features that allow the wrap, in use, to apply less compressive force at, near, or along at least a portion of its sides compared to at, near, or along its center. The claim(s) are narrative in form and replete with indefinite and functional or operational language. The

structure which goes to make up the device must be clearly and positively defined. The structure must be organized and correlated in such a manner as to present a complete operative device.

Allowable Subject Matter

7. Claims 3-38 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

9. Due to the new grounds of rejection, this action is made NON-FINAL.
